COMMENTS: Below X Attached None

I approve this well considered proposal to issue a Commission Policy Statement on the effectiveness, efficiency, and timeliness of new reactor licensing reviews.

I look forward to working with my fellow Commissioners on the consideration and development of such a Commission Policy Statement, and to communicating our expectations with the NRC staff, ACRS and external stakeholders.

I also look forward to considering any complementary proposals suggested by my Commission colleagues either in response to this COM or through subsequent Commission communications aimed at enhancing the NRC's execution of timely, predictable, cost-effective, and mission-focused licensing reviews for the next generation of nuclear reactors in the United States.
