Dear Mr. Coffey:

The U.S. Nuclear Regulatory Commission has approved the enclosed exemption from specific requirements of Title 10 of the *Code of Federal Regulations* Section 50.46, “Acceptance criteria for emergency core cooling systems for light-water nuclear power reactors,” to allow the use of a risk-informed methodology in lieu of a deterministic methodology to evaluate the effects of debris in containment following a loss-of-coolant accident for Point Beach Nuclear Plant, Units 1 and 2. This action is in response to your application dated July 29, 2022, as supplemented by letter dated June 9, 2023.

A copy of the exemption is enclosed. The exemption has been forwarded to the Office of the Federal Register for publication.

Sincerely,

/RA/
