License No. 16-35383-02

SUBJECT: COAL-MAC, LLC, VOIDING OF TERMINATION ACTION, COAL-MAC, LLC, MAIL CONTROL NO. 635530 AND RESUMING RENEWAL ACTION, MAIL CONTROL NO. 629986

Based on the letter dated April 17, 2023 (ML23123A131) submitted as part of Coa-Mac, LLC renewal action, Mail Control No. 629986, the licensee submitted a request to terminate the Coal-Mac LLC license, believing that all the gauges remaining at the site were possessed under the general license in 10 CFR 31.5.

However, on reviewing each of the gauge models listed in the letter, the license reviewer determined that the Scan Tech 9000 coal analyzer is authorized to be distributed only under a specific license. Therefore, the Coal-Mac LLC License No. 16-35383-02 cannot be terminated at this time. This Mail Control No. 633530 should be administratively closed using Milestone 22, entered by the Licensing Assistance Team because this is a termination action; and the Licensing Assistance Team should change the status of this action to "Voided."

Because the renewal action, Mail Control No. 629986, was never closed when the termination action was opened, the renewal may be completed under Mail Control No. 629986. A copy of this memo should be placed into the ADAMS package for both the termination and the renewal.
