I am reviewing the renewal to your NRC license #47-25227-01 dated May 26, 2023. In order to complete our review, please submit the additional information requested below. Please let me know if you have any questions.

1. There appears to be a typo-graphical error at the end of your radionuclide list. Please confirm that Cerium-137 should actually be Cesium-137.
2. Please confirm that you “Will develop, implement, and maintain procedures for ensuring accountability of licensed materials at all times.”

We will continue our review upon receipt of this information. Please respond on company letterhead with a senior manager signature. You may respond directly via email to me.

Let me know if you have any questions.
