RE: NRC Radioactive Materials License 21-24828-01MD
RLS (USA), Inc., 1200 Hubbard Road, Livonia, MI 48150

Dear Licensing Representative;

Please allow this letter to serve as notice that RLS (USA), Inc. wishes to amend the above referenced license as follows:

1. Please remove Deidre Hutson, R. Ph as an Authorized Nuclear Pharmacist (ANP) under Condition 11B of the existing Radioactive Materials License for RLS (USA), Inc.
2. RLS (USA), Inc would like to submit a Delegation of Authority (DOA) allowing the Corporate Radiation Safety Officer (CRSO), Glenn Sullivan, to speak on behalf of RLS (USA), Inc. The DOA can be found in attachment A.

Should you have any additional questions or require additional information, please feel free to contact me personally at (773) 318-2621.

Sincerely,

A handwritten signature in blue ink, appearing to read "Glenn P. Sullivan", is written over a light blue rectangular background.

Glenn P. Sullivan, Ph.D.
Director Regulatory Affairs
Corporate Radiation Safety Officer
RLS (USA), Inc.

DATE: June 2, 2023
SUBJECT: Corporate Radiation Safety Officer Delegation of Authority

Glenn P. Sullivan, Director, Health Physics, Regulatory Affairs, has been appointed Corporate Radiation Safety Officer (CRSO) for RLS. The CRSO has the responsibility for:

- Managing the corporate radiation safety program
- Ensuring the safe use of radioactive materials within the company
- Identifying radiation safety problems through direct observation or through appointees
- Recommending corrective actions and verifying implementation of such actions; and
- Ensuring compliance with regulations and licensing conditions.

Glenn Sullivan is hereby delegated the authority necessary to meet the above-listed responsibilities. This specifically includes having sufficient authority, organizational freedom, and management prerogative to:

- Make legally binding statements pertaining to radioactive materials licenses operated by RLS.
- Have unhampered access to all activities at any RLS facilities involving radioactive materials to identify radiation safety problems.
- Immediately stop, within coordination with management, any user that might result unsafe situation or a violation of license conditions.
- Recommend corrective actions; and,
- Verify the implementation of actions taken to correct radiation safety problems.

All of us have a critical responsibility in ensuring the safe use of radioactive materials, where safety is the center of our business.

Glenn P. Sullivan, Ph.D., CRSO
