Frisco, TX 75034

SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE NO. 30-29422-01

By email dated August 10, 2023, Lawrence J. Werts, III, EHS Manager, informed the Nuclear Regulatory Commission (NRC) that Weston Solutions, Inc., wished to terminate NRC radioactive materials license number 30-29422-01. The NRC Form 314 dated August 10, 2023, stated that no radioactive materials were ever procured or possessed under this license.

Based on the review of your historical file and inspection records, the staff concluded that there is no storage or use locations in NRC jurisdiction that need to be released for unrestricted use. Based on these conclusions, no further decommissioning action is required.

Please find enclosed Amendment No. 4 to NRC license number 30-29422-01 authorizing your license termination. An environmental assessment for this action is not required since no licensed material was ever procured or possessed under NRC license number 30-29422-01.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Roberto J. Torres, M.S., Senior Health Physicist
Materials Licensing Branch

Docket: 030-38420
