**Subject:** Financial Assurance (FA) associated with the request to authorize Ge-68/Ga-68 generators on NRC license nos. 21-24828-01MD, 24-32462-01MD, 21-26707-01MD- RLS(USA) Inc.  
**Date:** Friday, May 5, 2023 9:03:00 AM

---

Good morning,

I have reviewed three separate requests for three NRC license nos. 21-24828-01MD (letter dated 3/28/23), 24-32462-01MD (letter dated 4/4/23), 21-269707-01M (letter dated 4/12/23) to authorize the use of Ge-68/Ga-68 generators.

Each request contained a decommissioning funding plan (DFP) associated with the use of the Ge-68/Ga-68 generators at the specific location of use.

The DFP cost estimates are as follows:

\$33,565 - NRC license no. 21-24828-01MD

\$27,526 - NRC license no. 24-32462-01MD

\$27,432 - NRC license no. 21-26707-01MD

I have reviewed the DFPs for each license and I approve the cost estimates.

Each request contains a statement: "RLS is the process of obtaining financial assurance for decommissioning in the amount of \$225,000, and a decommissioning funding plan (*Attachment B*)."

Please advise if the licensee's plan is to provide the financial assurance instrument in the amount of \$225,000 for each license, separately, or the statement pertains to all three NRC licenses (I believe the intention was to provide the amount for each license separately). Please note you may provide one financial instrument for all three licenses covering the DFP amounts or exceeding the amounts; however, you need to specify/reference all three licenses in your FA documents.

Further, please provide the FA instruments as soon as possible. I will not be able to issue the requested amendments if the FA instruments are not received.

Sincerely,

**Magdalena R. Gryglak**
