Docket 70-7033  
SNM-7006

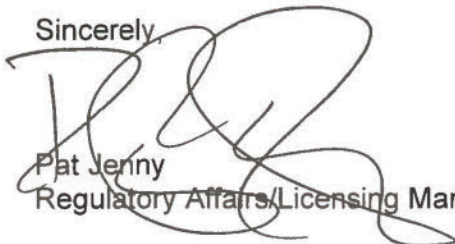

**Subject: Request for Continuance of Global Laser Enrichment LLC (GLE) Interim Authorization to Operate the Classified Cyber Network**  
Reference: (1) GLE2023-037 Request for Continuance of GLE IATO, dated May 12, 2023

GLE submitted in May of 2023, a request for continuance of GLE's Interim Authorization to Operate (IATO) the classified cyber network (Ref 1). GLE received the IATO with expiration of September 30, 2023. The specified conditions continue to be met including updates to GLE's plan of action and milestones (POA&M) for transition from NIST SP 800-53 Rev. 3 to Rev. 5. Our next update to the POA&M is due in October 2023. GLE had a successful INFOSEC inspection in July 2023. This inspection included a review of several controls associated with NIST SP800-53. Based on the current status of our transition to NIST 800-53, Rev.5, GLE is requesting that the IATO be extended to September 30, 2024.

Our IATO is valid till September 30, 2023; your approval of our request is needed prior to this date.

If there are any questions regarding this letter and its contents, please do not hesitate to contact me at 910-819-7447 or at [pat.jenny@gle-us.com](mailto:pat.jenny@gle-us.com).

Sincerely,

Pat Jenny
