August 23, 2023

Kayla Tracy
Radiation Safety Officer
Northern Indiana Public Service Company
Chemical & Environmental Compliance
2755 Raystone Dr.
Valparaiso, IN 46383

Dear Ms. Tracy:

This letter is regarding your request dated August 1, 2023, to amend your U.S. Nuclear Regulatory Commission (NRC) Materials License No. 13-14984-01.

The U.S. NRC's guidance document for your proposed type of license is NUREG-1556, Volume 4, Rev. 1, dated July 2016, "Consolidated Guidance About Materials Licenses, Program-Specific Guidance About Fixed Gauge Licenses." This guidance is available on the U.S. NRC website at: <https://www.nrc.gov/docs/ML1618/ML16188A048.pdf>

Upon review of the request, I identified the following areas requiring additional or clarifying information:

1. [Title 10 of the Code of Federal Regulations \(10 CFR\) §30.51\(a\)](#), requires that you retain records of the receipt, transfer and disposal of licensed radioactive materials.

Your request included documentation of the transfer for disposal of 20 Kay-Ray Model 7062BP fixed gauging devices through RAM Services, Inc., for disposal at Waste Control Specialists (WCS), LLC, in Andrews, Texas.

Please confirm that there were no other fixed gauging devices or other licensed radioactive materials previously used or stored at the Michigan City Generating Station.

2. Submit documentation demonstrating the Michigan City Generating Station is suitable for release to unrestricted use in accordance with [10 CFR §20.1402](#).

This may include leak test reports with an acceptable result for all fixed gauging devices or sealed sources previously used and/or stored at the licensed facility.

3. In accordance with [10 CFR §30.35\(g\)](#), describe any incidents involving ruptured, leaking or lost sealed sources or fixed gauging devices along with any other incidents involving radioactive materials at the Michigan City Generating Station.

In accordance with [10 CFR §2.390](#) of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC website at <https://www.nrc.gov/reading-rm/adams.html>.

To continue review of your request, please submit your response to this letter within 15 calendar days from the date of this letter. In your response, please refer to the license, docket, and control number specified below. I will assume that you do not wish to further pursue this licensing action if I do not receive a reply within the specified timeframe noted above.

If you have questions, require additional time to respond, or require clarification on any of the information stated above, I encourage you to contact me at (630) 829-9737 or via e-mail at Jason.Kelly@nrc.gov.

Sincerely,

Jason M. Kelly, MPH
