Subject: Reply to Notice of Violation; 030-39319/2023-002.

Dear Ms. Roldan-Otero:

ProFrac Services, LLC (ProFrac) has prepared this letter in response to the non-routine inspection conducted remotely related to the purchase of US Well Services by ProFrac. In response to your letter dated July 19, 2023, the NRC identified a Level IV violation related to the control of the NRC License 47-35025-01. ProFrac has developed the following response to the NOV identified.

- 1) Violation: On November 1, 2022, the licensee received control of NRC License No. 47-35025-01 without first receiving the Commission's consent in writing. Specifically, on November 1, 2022, ProFrac Services, LLC, completed its purchase of U.S. Well Services, LLC, who possessed a license issued by the NRC under the regulations in 10 CFR Part 30 and the purchase of which constituted a change of control under 10 CFR 30.34(b)(1), without having first sought or received the NRC's written consent.
- 2) Corrective Action and Steps Taken: On August 15th, 2023, Profrac submitted a termination request letter and NRC form 314 to regions 1 and 5. A copy has been included. Profrac expects full compliance to be achieved upon NRC's review and acceptance of the termination request.

Profrac takes its commitment regarding regulatory compliance and radiation safety very seriously. ProFrac has reviewed the process that allowed this miscommunication to occur and identified several improvements in the acquisition process to eliminate this issue.

Should you have any questions concerning this request please contact Richard Elfrez (817) 304-6480 or via email at Richard.Elfrez@profrac.com; or Randolph Stuart at (214) 728-8974 or via email at Randy.Stuart@profrac.com.

Sincerely,

A handwritten signature in black ink, appearing to read "Richard Elfrez", written over a light blue horizontal line.
