Re: Radioactive Materials License 32-35585-01 Amendment Request

Dear Mr. Courtemanche:

This letter is in response to your email received September 5, 2023 requesting more information as a result of our amendment request dated June 26, 2023.

I apologize for the confusion. It appears that the attachment originally sent included information from our past license application that shouldn't have been included.

I am attaching a replacement document that includes only the needed information for this specific amendment. In response to your specific questions:

- Question 1: We are only asking to correct a clerical error in the address that was discovered shortly after signing the lease. The only office we have occupied at 102 Wooster St. is Unit A-7.
- Question 2: The RSO will remain Robyn Myers, as listed on Amendment 4 of this license.
- Questions 3 and 4: Please see the revised attachment which *excludes* the information that you are inquiring about. The rest of the program remains unchanged; including the Emergency procedures.

The attachment listed below support this request:

- Troxler Amendment Item 3 June 2023 32-35585-01 corrected rev2.

Please feel free to contact me with any questions.

Thank you,

William F. Troxler, Jr.
