NUCLEAR REGULATORY COMMISSION**
REGION I
475 ALLENDALE ROAD – SUITE 102
KING OF PRUSSIA, PA 19406-1415

July 5, 2023

Michael St. Pierre, P. E., President
Soils Engineering Services, Inc. (SESI)
12 Maple Avenue
Building A
Pine Brook, NJ 07058

SUBJECT: SOILS ENGINEERING SERVICES, INC. (SESI), LICENSE AMENDMENT, MAIL CONTROL NO. 635863

Dear Mr. St. Pierre:

This refers to your license amendment request dated May 22, 2023. Please find enclosed Amendment No. 1 authorizing a new Radiation Safety Officer; increased quantities of sources for use in Troxler Electronic Laboratories gauges; and addition of Humboldt Scientific, Inc. gauges. Please note that the Humboldt gauges are listed as Model 5001, as stated in the Sealed Source and Device Registry, because the additional designations differ by method of data collection, with no difference in the radiation safety design. In addition, please note that no storage location is listed on the NRC license, because the storage location in New Jersey is not under NRC jurisdiction.

An environmental assessment for this action was not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

We note that the name on the license is listed as "Soils Engineering Services, Inc." is different than the name on the incoming letterhead "SESI Consultant Engineers." If the name on the license should be changed, please submit an amendment request. In addition, the NRC must be notified prior to a change of ownership (direct or indirect) in accordance with 10 CFR 30.34(b), whether or not a change of name occurs.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please contact me at 610-337-5040 or by electronic mail to Elizabeth.Ullrich@nrc.gov so that appropriate corrections or answers can be provided.

You will be periodically inspected by the NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action(s) against you. This could include issuance of a Notice of Violation, or Imposition of a Civil Penalty, or an Order Suspending, Modifying or Revoking Your License as specified in the NRC Enforcement Policy. The NRC Enforcement Policy is available at: <http://www.nrc.gov/reading-rm/doc-collections/enforcement/>.

An electronic version of the NRC's regulations is available on the NRC Web Site at: www.nrc.gov. Additional information regarding use of radioactive materials may be obtained on the NRC Web Site at: <http://www.nrc.gov/materials/miau/mat-toolkits.html>. This site also provides the link to the toolbox for updated information on the revised regulations for naturally-occurring and accelerator-produced radioactive materials (NARM).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web Site at: <http://www.nrc.gov/about-nrc/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation.

Sincerely,

Betsy Ullrich, Senior Health Physicist
Commercial, Industrial, R&D
and Academic Branch
Division of Radiological Safety and Security
Region I
