Importance: High

Good afternoon Mr. Talley,

I am attempting a second outreach to you. I sent the below email on August 1st requesting assistance with identifying the Advanced notification designee for Washington D.C. Please respond to this email and let me know you received this request.

Kindest regards,
Monica Ford

Subject: Response requested: Please confirm 10 CFR Part 37/71/73 Advanced notification designee
Importance: High

Good morning Mr. Talley,

The NRC is conducting its annual audit of the NRC's Advance Notification of Radioactive Material and Nuclear Material Shipments Designee List.

For the District of Columbia, the NRC has the below individual listed as being designated by the Governor to receive advance notification of radioactive material and nuclear material shipments through the district, as required by Public Law 96-295 (Section 301) and implemented in Title 10 of the Code of Federal Regulations, Parts 37, 71, and 73.

District of Columbia

Part 37 Part 71 Part 73	Frederick W. Goldsmith, Deputy Chief of Operations Homeland Security and Emergency Management Agency 2720 Martin Luther King, Jr. Avenue, SE 2 nd Floor, Room 236 Washington, DC 20032 Phone: (202) 481-3169 Mobile: (202) 375-9506 24 Hour Watch Center: (202) 727-6161 REMOVED FAX E-mail: frederick.goldsmith@dc.gov
-------------------------------	--

Specific advance notifications are as follows:

- **10 CFR 37.77**, "Advance Notification of Shipment of Category 1 Quantities of Radioactive Material," requires advance written notification be provided to the licensing agency (i.e., the NRC or an Agreement State) and to affected States for shipment of licensed material in a Category 1 quantity, as established in Appendix A to 10 CFR Part 37, "Category 1 and Category 2 Radioactive Materials," before transport of the material outside the confines of the licensee's facility or other place of use or storage.
- **10 CFR 71.97**, "Advance Notification of Shipment of Irradiated Reactor Fuel and Nuclear Waste," requires advance written notification be provided to States, participating Federally recognized Tribes, and the NRC for irradiated reactor fuel and for large quantity shipments of radioactive waste outside the confines of the licensee's facility or other place of use or storage.
- **10 CFR 73.35**, "Requirements for Physical Protection of Irradiated Reactor Fuel (100 grams or less) in Transit," requires that small shipments of irradiated reactor fuel (100 grams or less) be subject to the physical protection requirements in 10 CFR Part 37. Accordingly, per 10 CFR 37.77, advanced written notification must be provided to States and the NRC for these shipments before transport outside the confines of the licensee's facility or other place of use or storage.
- **10 CFR 73.37**, "Requirements for Physical Protection of Irradiated Reactor Fuel in Transit," requires advance written notification be provided to States, participating Federally recognized Tribes, and the NRC for larger shipments of irradiated reactor fuel (greater than 100 grams) outside the confines of the licensee's facility or other place of use or storage.

An email was sent to Frederick Goldsmith on June 21 and July 25 in an attempt to confirm this information and to date the NRC has not received a response. I am reaching out to you to see if you know if Frederick Goldsmith is still the appropriate contact or if Frederick is no longer in this role. Any help you can provide is appreciated.

Kindest regards,
Monica Ford
