Subject: [External_Sender] RE: 2023 Annual Audit - NRC's Advance Notification of Radioactive Material and Nuclear Material Shipments Designee List
Date: Monday, July 31, 2023 4:10:02 AM

Hello Jeff,

I am the acting State Liaison Officer (SLO) office in the State of Hawaii. Thomas Lileikis, the last official SLO, retired at the end of last year. We have recently got a new program manager who will be the State of Hawaii's SLO for the Nuclear Regulatory Commission (NRC). Her name is Gabrielle Fenix Grange. I have informed her about the SLO position and will provide her with the paperwork soon. She needs to be still appointed by the Governor in the near future.

I also will inform Ryan Alexander of Regional State/Govt. Liaison Officer, US Nuclear Regulatory Commission, Region IV of the change into our SLO position.,

For now, you can send me the information on the Advance Notification of Radioactive Material and Nuclear Material Shipments if that is okay with you and the NRC.

If you have any questions, please contact me.

Geoffrey Lau
Radiation Section Supervisor
State of Hawaii Department of Health
Indoor and Radiological Health Branch
99-945 Halawa Valley Street
Aiea, Hawaii 96701
Phone number: (808) 586-4700
Fax number: (808) 586-5811

Subject: [EXTERNAL] RE: 2023 Annual Audit - NRC's Advance Notification of Radioactive Material and Nuclear Material Shipments Designee List

Importance: High

Folks,

It's been a month since my last email enquiring about your status as your State's Part 37/71/73 Advance Notification of Radioactive Material and Nuclear Material Shipments Designee (<https://scp.nrc.gov/special/designee.pdf>).

If you are receiving this email, I still have not received confirmation that you are the appropriate Part 37/71/73 contact for your State and that your contact information is correct.

Please let me know ASAP, so I can either revise your state's information or make a note to myself that no changes are needed.

Thanks.

Jeff

Subject: 2023 Annual Audit - NRC's Advance Notification of Radioactive Material and Nuclear Material Shipments Designee List

External Email

Dear Advanced Notification Designees:

I am conducting the annual audit of NRC's Advance Notification of Radioactive Material and Nuclear Material Shipments Designee List.

You are currently listed on our website (<https://scp.nrc.gov/special/designee.pdf>) as the State official designated by your Governor to receive advance notification of radioactive material and nuclear material shipments through your State, as required by Public Law 96-295 (Section 301) and implemented in Title 10 of the Code of Federal Regulations, Parts 37, 71, and 73.

Specific advance notifications are as follows:

- **10 CFR 37.77**, "Advance Notification of Shipment of Category 1 Quantities of Radioactive Material," requires advance written notification be provided to the licensing agency (i.e., the NRC or an Agreement State) and to affected States for shipment of licensed material in a Category 1 quantity, as established in Appendix A to 10 CFR Part 37, "Category 1 and Category 2 Radioactive Materials," before transport of the material outside the confines of the licensee's facility or other place of use or storage.
- **10 CFR 71.97**, "Advance Notification of Shipment of Irradiated Reactor Fuel and Nuclear Waste," requires advance written notification be provided to States, participating Federally recognized Tribes, and the NRC for irradiated reactor fuel and for large quantity shipments of radioactive waste outside the confines of the licensee's facility or other place of use or storage.
- **10 CFR 73.35**, "Requirements for Physical Protection of Irradiated Reactor Fuel (100 grams or less) in Transit," requires that small shipments of

irradiated reactor fuel (100 grams or less) be subject to the physical protection requirements in 10 CFR Part 37. Accordingly, per 10 CFR 37.77, advanced written notification must be provided to States and the NRC for these shipments before transport outside the confines of the licensee's facility or other place of use or storage.

- **10 CFR 73.37**, "Requirements for Physical Protection of Irradiated Reactor Fuel in Transit," requires advance written notification be provided to States, participating Federally recognized Tribes, and the NRC for larger shipments of irradiated reactor fuel (greater than 100 grams) outside the confines of the licensee's facility or other place of use or storage.

Please verify that your state's designee information (such as, name, phone, fax, address, and email) is still correct. The current contact information on file can be found at: <https://scp.nrc.gov/special/designee.pdf>.

If changes should be made, please let me know.

Thanks.

Jeff
