Subject: [External_Sender] RE: 2023 Annual Audit - NRC's Advance Notification of Radioactive Material and Nuclear Material Shipments Designee List
Date: Wednesday, June 21, 2023 2:27:31 PM

Hello Jeff,

The area code for the fax number should be 702 instead of 775 see bolded text.

John Follette, Manager
Radiation Control Program
Nevada Department of Health and Human Services
Division of Public and Behavioral Health
2080 E. Flamingo Road, Suite 319
Las Vegas, Nevada 89119
Phone: (702) 486-3017
24-hour phone: (877) 438-7231
Fax: **(702)** 486-5024
E-mail: jfollette@health.nv.gov

Thank you,

John Follette

Manager | Radiation Control Program
Division of Public and Behavioral Health
Nevada Department of Health and Human Services
(702) 486-3017

Subject: 2023 Annual Audit - NRC's Advance Notification of Radioactive Material and Nuclear Material Shipments Designee List

WARNING - This email originated from outside the State of Nevada. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Advanced Notification Designees:

I am conducting the annual audit of NRC's Advance Notification of Radioactive Material and Nuclear Material Shipments Designee List.

You are currently listed on our website (<https://scp.nrc.gov/special/designee.pdf>) as the State official designated by your Governor to receive advance notification of radioactive material and nuclear material shipments through your State, as required by Public Law 96-295 (Section 301) and implemented in Title 10 of the Code of Federal Regulations, Parts 37, 71, and 73.

Specific advance notifications are as follows:

- **10 CFR 37.77**, "Advance Notification of Shipment of Category 1 Quantities of Radioactive Material," requires advance written notification be provided to the licensing agency (i.e., the NRC or an Agreement State) and to affected States for shipment of licensed material in a Category 1 quantity, as established in Appendix A to 10 CFR Part 37, "Category 1 and Category 2 Radioactive Materials," before transport of the material outside the confines of the licensee's facility or other place of use or storage.
- **10 CFR 71.97**, "Advance Notification of Shipment of Irradiated Reactor Fuel and Nuclear Waste," requires advance written notification be provided to States, participating Federally recognized Tribes, and the NRC for irradiated reactor fuel and for large quantity shipments of radioactive waste outside the confines of the licensee's facility or other place of use or storage.
- **10 CFR 73.35**, "Requirements for Physical Protection of Irradiated Reactor Fuel (100 grams or less) in Transit," requires that small shipments of irradiated reactor fuel (100 grams or less) be subject to the physical protection requirements in 10 CFR Part 37. Accordingly, per 10 CFR 37.77, advanced written notification must be provided to States and the NRC for these shipments before transport outside the confines of the licensee's facility or other place of use or storage.
- **10 CFR 73.37**, "Requirements for Physical Protection of Irradiated Reactor Fuel in Transit," requires advance written notification be provided to States, participating Federally recognized Tribes, and the NRC for larger shipments

of irradiated reactor fuel (greater than 100 grams) outside the confines of the licensee's facility or other place of use or storage.

Please verify that your state's designee information (such as, name, phone, fax, address, and email) is still correct. The current contact information on file can be found at: <https://scp.nrc.gov/special/designee.pdf>.

If changes should be made, please let me know.

Thanks.

Jeff

Jeffery A. Lynch
