Bryan

Per the email string that follows, the CCSWG has approved the latest version of the Movement Plan. This approval is much anticipated but it also took longer than expected. In the acceptance letter for the Movement Plan, we indicated completing the review by July 31, 2023. There is now a need to revise that date. We now anticipate have the review completed and the official NRC determination on the Movement Plan to you by October 27, 2023. This email serves as the NRC notification to UUSA and ETC US of the revised completion date.

Jonathan,

The CCSWG has approved the latest version of the Movement Plan. You can now proceed with issuing the license amendment. Let me know if you have any questions.

Thanks,
Sam

Subject: [External_Sender] ONR-CNSS-ETC Movement Plan - OFFICIAL

Dear Michael

I have now received confirmation from all CCSWG partners that the ETC track and trace proposal, which has been incorporated into the revised Movement Plan, is satisfactory. Accordingly, the CCSWG is content to endorse the most recent version of the Movement Plan and that it can be utilised with immediate effect.

Many thanks for your patience.

Mark
