28 August 2023

Ms. Karen Ainsworth,
Radiation Safety Officer
VA Maine Healthcare System
1 VA Center
Augusta, ME 04330

Re: RPK-2065, Shipment 2023-065

Dear Ms. Ainsworth,

This letter is to advise you the radioactive material as detailed below has been received by RAM Services, Inc. as of 21 August 2023 and we have taken possession of the device identified below under our state of Wisconsin Radioactive Materials License 071-1234-01.

Manufacturer	Model #	Device Serial #	Isotope	Activity (mCi)	Assay Date
Berthold Technologies	LB7440	0798/10	Cs-137	100	8/19/2011

This source will need to be disposed of as Low-Level Radioactive Waste at the Waste Control Specialists site in Andrews, TX. RAM Services will manifest it using an U.S. Nuclear Regulatory Commission 540/541 waste manifest, naming VA Maine Healthcare System as the last beneficial user and waste generator of record. Final disposal activities, waste volumes and isotopes as indicated on the waste manifest shall be electronically sent along with a copy of the WCS acceptance letter once received from the disposal facility at a later date.

Please retain this record in your permanent files and feel free to contact me with any questions or concerns you may have. I can also be reached via email at jwiza@ramservicesinc.com or my cell phone at 920 323-6993.

Sincerely,

A handwritten signature in black ink that reads "Jerry P. Wiza".

Jerry P. Wiza,
President
