Date(s) and Time(s): October 04, 2023, 01:00 PM to 03:00 PM ET

Location: Webinar

Category: This is an Observation Meeting. This is a meeting in which attendees will have an opportunity to observe the NRC performing its regulatory function or discussing regulatory issues. Attendees will have an opportunity to ask questions of the NRC staff or make comments about the issues discussed following the business portion of the meeting; however, the NRC is not actively soliciting comments towards regulatory decisions at this meeting.

Purpose: The purpose of this meeting is to continue an ongoing discussion of the proposed guidance document developed by members of TRTR on compliance with the regulations in Title 10 Code of Federal Regulations, Section 50.59 "Changes, tests and experiments," emphasizing aspects of digital upgrades specific to research and test reactors. This meeting will review comment responses from TRTR on Section 1 and section 4 (up to and including example 4-2). NEI 23-03 was submitted to the NRC for endorsement as a supplement to NEI 21-06.
