September 26, 2023

Bret Reid
Radiation Safety Officer
Professional Service Industries, Inc.
545 E. Algonquin Rd.
Arlington Heights, IL 60005

Dear Bret Reid:

In your correspondence to us dated June 29, 2023, and September 15, 2023, you indicated that you wished to release for unrestricted use your former storage locations located at 929 Alpine Commerce Park NW, Ste. 100, Grand Rapids, Michigan and 1938 Franklin St., Ste 101, Detroit, Michigan, respectively.

The NRC staff has reviewed your final status surveys consisting of the final leak tests conducted on the gauges stored at these locations before their transfer to other licensed locations.

Based on its review, the staff has concluded that all licensable radioactive material has been removed from within your former area of use and residual radioactive material attributable to licensed activities does not exceed current NRC criteria.

Based on these conclusions no further remediation or actions with respect to NRC regulated material is required for your former gauge storage locations and they are suitable for unrestricted use.

This letter serves to resolve the last remaining details of your recently renewed license.

If you have any questions concerning these changes or this amendment you may contact me directly at (630) 829-9841. My fax number is (630) 515-1078. My email address is colleen.casey@nrc.gov. Reaching me via email is the most reliable method of contacting me.

B. Reid
