The Honorable Christopher Hanson
Chair
Nuclear Regulatory Commission
11555 Rockville Pike
Rockville, MD 20852

Dear Chair Hanson:

I write to request information regarding the Nuclear Regulatory Commission's operations in the event of a lapse in federal appropriations.

According to Office of Personnel Management (OPM) guidance, federal employees are typically designated as either "exempt", "excepted", a "Presidential appointee not subject to furlough," or "non-exempt" during a lapse in federal funding. OPM has defined each of these terms. An "exempt" employee is an employee whose pay is not funded by annual appropriations.¹ An "excepted" employee is an employee who shall continue to work in the absence of an appropriation.² A "Presidential appointee not subject to appropriations" are a limited class of political appointees whose salary is not held subject to the appropriations.³ Finally, a "non-exempt" employee is any other employee who does not fit in one of the three previous categories and who shall not work during a lapse in appropriations.⁴

The Committee on Homeland Security and Governmental Affairs is authorized by Rule XXV of the Standing Rules of the Senate and Senate Resolution 59 of the 118th Congress to investigate matters that aid the Committee in "studying the efficiency, economy, and effectiveness of all agencies and departments of the Government."⁵

To better understand the Nuclear Regulatory Commission's operations during a lapse in federal appropriations, please provide my office with the following information no later than October 13, 2023:

1. The total number of employees as of the date of this letter, broken down by component, office, and/or sub-agency.
