RE : Termination of NRC License No. 31-23978-01E and No. 06-31440-01

Dear Sir:

We are requesting Owlstone, Inc.'s NRC Possession License No. 06-31440-01 and Exempt License No. 31-23978-01E to be terminated.

We no longer possess nor distribute Lonestar instruments with radioactive material. We informed our Lonestar customers that we no longer provide services to Lonestar instruments and gave them a one-year window to return their Lonestar instrument(s) if they needed to dispose their instrument(s). This window is now closed. We have now informed our Lonestar customers that they should forward any of their Lonestar inquiries and further disposal of any old Lonestar instruments directly to Owlstone Medical, Cambridge, UK.

We have since moved and we have a new address:

Owlstone Inc.
320 Post Road, Suite#180, #1022
Darien, CT 06820
Tel: 203-908-4848

If there is a need to request further information, please do not hesitate to contact me at 203-908-4848 or email me at Bret.Bader@owlstoneinc.com. Thank you in advance for your time and consideration in this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Bret Bader", with a large, sweeping loop at the end.

Bret Bader
CEO
