RE: Amendment to NRC License No. 21-04177-01, Lakeland Medical Center.

Please amend the following items:

Please remove Section H. Yttrium-90 permitted by 10 CFR 35.1000 from our license. The original intent was to develop a program that utilized clinical use of Y-90. Unfortunately, this program had never developed, and the organization has decided to terminate any future use. Also, please amend for a name change of the Licensee to Corewell Health - Southwest Michigan. The ownership is unchanged, this is just a name change. If there are any questions, please contact me at 269-985-4593, or by fax at 269-982-4937.

Sincerely,

Radiation Safety Officer
