Subject: Response to ACU's Request for Non-Public Documents Related to Security

Dear Dr. Towell,

This e-mail is in response to ACU's request, by e-mail dated August 21, 2023 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML23237B149), regarding access to certain non-public documents relating to supplemental security measures for the protection of special nuclear material (SNM) of moderate strategic significance (i.e., Category II SNM). The Commission has determined that the NRC staff may make these documents available to applicants, if the staff can establish the need-to-know. Upon review of the request, the NRC staff has established that ACU does have the need-to-know for these documents. Therefore, the following documents will be made available to ACU:

- COMSECY-17-0008, "Physical Protection for Non-Power Production and Utilization Facilities Intending to Produce Molybdenum-99," dated February 22, 2017
- SRM-COMSECY-17-0008, "Staff Requirements – COMSECY-17-0008 – Physical Protection for Non-Power Production and Utilization Facilities Intending to Produce Molybdenum-99," dated August 1, 2017
- SECY-18-0063, "Response to Staff Requirements Memorandum (SRM)-COMSECY-17-0008 on Physical Protection for Non-Power Production and Utilization Facilities Intending to Produce Molybdenum-99," dated June 4, 2018
- SRM-SECY-18-0063, "Staff Requirements – SECY-18-0063 – Response to Staff Requirements Memorandum (SRM)-COMSECY-17-0008 on Physical Protection for Non-power Production and Utilization Facilities Intending to Produce Molybdenum-99," dated September 26, 2019

The documents will be uploaded to the shared BOX folder titled "Security Pre-Application Engagement." Please contact your Project Managers with any questions regarding access to these documents.

Note that these documents are marked as Official Use Only – Security Related Information and as such it is ACU's responsibility to control access to these documents. ACU should ensure that only those with the need-to-know will gain access to the documents.

Thank you,

Ed Helvenston, U.S. NRC
