RE: Letter pursuant Title 10 Bankruptcy Notification Letter

Sara Forster, M.S.
US NRC Region III

Dear Sara,

Please accept this letter in response to the bulleted items below regarding the current standby status of NRC License No, 24-15122-01 CN 633627.

- Bankruptcy Court: United States Bankruptcy Court for the: Western District of Missouri
Case number: 23-20100
Noble Health Real Estate II LLC
Bankruptcy filed: March 2023
- Please see attached list of radiation material currently possessed by Noble Health Audrain.
- Licensed material will not be used for any purpose, plan to dispose of or transfer any of the radionuclides, sealed sources, or devices, during bankruptcy proceedings.
- Radionuclides and sealed sources identified above, are not in use and are in secured storage.
- No changes have taken place in terms of radiation safety officer or authorized users for the radionuclides, sealed sources, or devices since the last letter to NRC dated July 21, 2023. All material will remain in storage in the hot lab secured as previously described. No changes to the radiation safety program from previous letter while material is in storage status.
- Chapter 11 case filed.
- No changes will be conducted during the bankruptcy proceedings.
- Anticipation bankruptcy to end December 2023, this is not confirmed.
- There are no other affiliated companies that may also have radionuclides, sealed sources and or devices that require an NRC license.
- Contact person Kerri Carr RT(R)(M), Imaging Director, Ziva Medical, Mexico 515 E Promenade, Mexico MO 65265 618-231-9908, kerri@lmpromotions.com, kerri.carr@zivamed.com. Updates will be provided January 2024 and then thereafter upon changes of bankruptcy if not completed by January 1, 2024.

I commit that we will not use the licensed material for any purpose pending disposal or authorization restart. No changes will be conducted during bankruptcy proceedings. Please call with any questions or concerns.

Sincerely,
Kerri Carr RT(R)(M) 10/23/2023
