Hi Tim,

The purpose of this email is to acknowledge receipt of the letter from you dated October 26, 2023 , in response to the U.S. Nuclear Regulatory Commission's (NRC) letter dated September 18, 2023, transmitting a Notice of Violation.

In the October 26, 2023, letter, you , identify the corrective actions that your company has taken or plans to take to address the violations . The NRC has reviewed the corrective actions, which appear to be adequate, and has no further questions at this time. The actions Materials Inspection and Testing, Inc., has taken, and plans to take to address the violation may be examined during a future inspection.

In accordance with the NRC's "Rules of Practice" in 10 CFR 2.390, a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Tim,

You do not have to have all of the corrective actions complete to submit the letter. We just need to understand your plan. For example, you can explain what your corrective actions are (like ordering the leak tests and signing up for the training), how you will prevent recurrence of the issues (what kind of reminders will you put in place so you don't forget these things in the future), and when you will be back in compliance.

Can you submit the letter by the end of next week?

Please let me know if you have questions.

Elizabeth,

I have not, we just completed our DOT Class 7 Portable gauge transportation course. I am waiting on leak tests. These tests are to be provided by Qaltek.

Thanks,
Tim
