ASSOCIATED WITH THE U.S. NUCLEAR REGULATORY COMMISSION  
STAFF'S REVIEW OF THE OCONEE NUCLEAR STATION, UNITS 1, 2, & 3,  
SUBSEQUENT LICENSE RENEWAL APPLICATION (EPID NUMBER:  
L-2021-SLE- 0002) (DOCKET NUMBERS: 50-269, 50-270 AND 50-287)

Dear Steven M. Snider:

The U.S. Nuclear Regulatory Commission (NRC) staff conducted the environmental scoping process and solicited public comments pursuant to Section 51.29 of Title 10 of the *Code of Federal Regulations* (10 CFR) from December 19, 2022, to February 2, 2023. This process helped determine the scope of the staff's environmental review of the application for subsequent renewal of the renewed facility operating licenses for Oconee Nuclear Station, Units 1, 2, & 3 (Oconee Station). The scoping process is the first step in the development of an Oconee Station-specific supplement to NUREG-1437, "Generic Environmental Impact Statement for License Renewal of Nuclear Plants" (Agencywide Documents Access and Management System (ADAMS) Accession Nos. ML13106A241, ML13106A242, and ML13106A244).

At the conclusion of the scoping process, the staff prepared the enclosed environmental scoping summary report identifying comments received during the scoping period. In accordance with 10 CFR 51.29(b), the NRC staff will send a copy of the scoping summary report to each participant in the scoping process.

If you have any questions concerning the staff's environmental review of this subsequent license renewal application, please contact Lance Rakovan by telephone at 301-415-2589 or via e-mail at [Lance.Rakovan@nrc.gov](mailto:Lance.Rakovan@nrc.gov).

Sincerely,

Signed by Koenick, Stephen
