Pontiac, MI 48341

SUBJECT: TERMINATION OF RADIOACTIVE MATERIALS LICENSE FOR OAKLAND
PHYSICIANS MEDICAL CENTER, LLC, D/B/A PONTIAC GENERAL HOSPITAL,
NRC MATERIALS LICENSE NO. 21-06217-02

Dear Ms. Scott:

In NRC Form 314, "Certificate of Disposition of Materials," dated August 9, 2023, and the letters dated October 13, 2023 and October 17, 2023, you notified the U.S. Nuclear Regulatory Commission (NRC) of a request to terminate NRC Materials License No. 21-06217-02. Your requests are available electronically from the Agencywide Documents Access and Management System (ADAMS) at Accession Nos. ML23222A040, ML23286A289 and ML23291A090.

An environmental assessment for this action is not required because this action is categorically excluded under [Title 10 of the Code of Federal Regulations \(CFR\) Section 51.22\(c\)](#).

I reviewed the submitted documentation of the transfer/disposal of licensed materials and the closeout survey report. Based on my review, I have concluded that all licensable radioactive material has been removed from the facility and residual radioactive material attributable to licensed activities does not exceed current NRC criteria.

Based on these conclusions, no further remediation or actions are required with respect to NRC-regulated material. Your facilities are suitable for unrestricted use, and U.S. NRC Materials License No. 21-06217-02 is hereby terminated. A copy of the amended license - Amendment No. 76 – is enclosed.

In accordance with [10 CFR §2.390](#) of the NRC's "Rules of Practice and Procedure," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's ADAMS, accessible from the NRC website at: <https://www.nrc.gov/reading-rm/adams.html>.

H. Scott
