**SUBJECT: PROFRAC SERVICES, LLC, ON BEHALF OF U.S. WELL SERVICES, LLC,  
LICENSE TERMINATION, MAIL CONTROL NO. 637016**

Dear Richard Elfrez:

Please find enclosed Amendment No. 9 terminating License No. 47-35025-01 for U.S. Well Services, LLC, as requested by your letter dated August 15, 2023 (NRC Agencywide Documents Access and Management System (ADAMS) Accession Number ML23250A278) and accompanying NRC Form 314 dated the same. You submitted this request on behalf of U.S. Well Services, LLC, as U.S. Well Services, LLC was purchased by ProFrac Services, LLC, with the sale completing on November 1, 2022. Additional information pertinent to your termination request was provided in the letter dated May 4, 2023 (NRC Agencywide Documents Access and Management System (ADAMS) Accession Number ML23180A075), as referenced in your August 15, 2023, letter. The matter of the absence of the NRC's written consent for this purchase was described in the NRC's Notice of Violation dated July 19, 2023 (Accession Number ML23200A116).

On the subject of the date of the sale in question: Please note that your letters dated May 4, 2023, and August 15, 2023, misquote this date as November 1, 2023. Consistent with discussions between the NRC and ProFrac Services, LLC, since April 2023, press releases by ProFrac Services, LLC and other publicly available news reporting on this purchase, it is well understood that the sale was completed on November 1, 2022.

This termination is being issued in accordance with the requirements of the applicable NRC Termination Rule in 10 CFR 30.36. All facilities previously used for licensed activities may be released for unrestricted use. An environmental assessment for this action was not required, since this action is categorically excluded under 10 CFR 51.22(c)(20).

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web Site at <http://www.nrc.gov/reading-rm/adams.html>.
