## CONDITIONS

10. Licensed material shall be stored at the licensee's facilities located at 255 Nova Street, Huntington, West Virginia, 29504
11. The Radiation Safety Officer for activities authorized by this license is Michael R. Mannon.
12. Licensed material shall be used by, or under the supervision and in the physical presence of, Michael R. Mannon, Patrick P. Riley or individuals who have been trained as specified in the letters (including enclosures) dated February 10, 1992 and September 14, 1992, and as specified in 10 CFR 39.13(b) and 10 CFR 39.61 and be designated, in writing, by Michael Mannon. The licensee shall maintain training records for individuals designated as users.
13.
  - A. Notwithstanding the periodic leak test required by 10 CFR 39.35, the requirement does not apply to sources, except sources containing plutonium, that are stored and not being used. The sources exempted from this periodic test shall be tested for leakage before use or transfer to another person.
  - B. Sealed sources authorized for use other than well logging shall be tested for leakage and shall be inventoried in accordance with 10 CFR 39.35 and 10 CFR 39.37.
  - C. No sealed source shall be stored for a period of more than 10 years without being tested for leakage and/or contamination.
14. The licensee shall ensure that each source holder or tool containing radioactive material bears a durable and clearly visible label bearing the radiation symbol and the words "Caution, Radioactive Material." The label must be on the smallest component that contains the licensed material and is transported as a separate piece of equipment.
15. The opening, repair, or modification of any Energy Compensation Source must be performed by persons specifically licensed by the U.S. Nuclear Regulatory Commission or an Agreement State to perform such services.
16. The licensee will continue to take all actions within its ability to dispose of its material and notify NRC within 30 days if disposal is achieved.

Amendment No. 8

17. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents, including any enclosures, listed below. This license condition applies only to those statements, representations, and procedures that are required to be submitted in accordance with the regulations. The U.S. Nuclear Regulatory Commission's regulations shall govern unless the statements, representations, and procedures in the licensee's application and correspondence impose on the licensee requirements that are more restrictive than or in addition to the regulations.
