**SUBJECT: CARDIOLOGY PHYSICIANS P.A., REQUEST FOR ADDITIONAL  
INFORMATION, MAIL CONTROL NO. 637677**

Dear Dr. Sarter:

This is in reference to your letter dated October 26, 2023, requesting to amend NRC License No. 07-30713-01 and letter dated November 17, 2023, responding to our request for additional information (RAI). In order to continue our review, we need the following additional information. Please be aware that the following requests are primarily derived from NUREG 1556, Volume 15, Revision 1, "Consolidated Guidance About Materials Licenses: Guidance About Changes of Control and About Bankruptcy Involving Byproduct, Source, or Special Nuclear Materials Licenses" found at <https://www.nrc.gov/docs/ML1618/ML16181A003.pdf>.

1. Your November 17, 2023, letter described the status of the locations authorized on your license, including an intent to remove 1401 Foulk Road, Wilmington, DE, later this year. Please be aware that, while your letter indicated that you did not intend to add 910 Foulk Road, Wilmington, DE, to your CPPA license, it is already an authorized location of use on this license (License No. 07-30713-01). No additional information is needed at this time. However, the additional information discussed in our RAI letter dated November 7, 2023, concerning the removal of 1401 Foulk Road, Wilmington, DE, will need to be submitted at the appropriate time.
2. Your November 17, 2023, letter stated that Dr. Aaron Snyder is part owner and CEO of US Health Partners, LLC. You stated this organization manages two cardiology practices which hold radioactive materials licenses. Please provide the license number(s) and identify the jurisdiction(s) in which the license(s) is/are held.

We will continue our review upon receipt of this information. Please reply to my attention at [Jonathan.Pfingsten@nrc.gov](mailto:Jonathan.Pfingsten@nrc.gov).

In order to continue prompt review of your application, we request that you submit your response to this letter within 10 calendar days from the date of this letter.

An electronic version of the NRC's regulations is available on the NRC Web Site at: [www.nrc.gov](http://www.nrc.gov). Additional information regarding medical uses of radioactive materials may be obtained on the NRC Web Site at: <http://www.nrc.gov/materials/miau/med-use-toolkit.html>. This site also provides the updated Training and Experience NRC Form 313A series of forms and guidance, as well as information on the revised regulations for naturally-occurring and accelerator-produced radioactive materials (NARM).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>. Please be aware that you may request that certain portions of your submittal to NRC be withheld from public disclosure as proprietary information. To do this, you must execute an affidavit as specified in 10 CFR 2.390. You must list all portions that you wish to be held proprietary, along with your reasoning as to why that is appropriate. While it is allowable, please refrain from submitting proprietary information in support of a license unless necessary. Keep in mind that all NRC licenses are considered to be in the public domain, and therefore may be viewed by any member of the public who requests to see them.

If you have any questions regarding this request for additional information, please contact me at 610-337-5170 or via electronic mail at [Jonathan.Pfingsten@nrc.gov](mailto:Jonathan.Pfingsten@nrc.gov).

Thank you for your cooperation.

Sincerely,

Jonathan Pfingsten, Senior Health Physicist  
Medical and Licensing Assistance Branch  
Division of Radiological Safety and Security  
Region I
