SUBJECT: NORTH CAROLINA PROPOSED REVISIONS TO RADIATION PROTECTION
RULES, 10A NCAC 15.0301-.0310

Dear Louis Brayboy:

We have reviewed the proposed revisions to the North Carolina Radiation Protection Rules, 10A NCAC 15.0301-.0310, received by our office on October 16, 2023. These regulations were reviewed by comparison to the equivalent U.S. Nuclear Regulatory Commission (NRC) rules and the requirements of Chapter 10 *Code of Federal Regulations* (CFR) Parts 30, 31, 32, 33, 35, 36, 40, and 70 as identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with you on December 13, 2023.

As a result of our review, we have three comments that have been identified in Enclosure 1. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that the North Carolina regulations meet the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final North Carolina regulations. However, we have determined that if your proposed regulations were adopted, incorporating our comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200, "Compatibility Categories and Health and Safety Identification for NRC Regulations and Other Program Elements."

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in NMSS Procedure SA-201, "Review of State Regulatory Requirements," please highlight the final changes and provide a copy to Division of Materials Safety, Security, State, and Tribal Programs, NMSS.

The SRS Data Sheet in Enclosure 2 summarizes our knowledge of the status of other North Carolina regulations, as indicated. Please let us know if you note any inaccuracies or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on: <https://www.nrc.gov/agreement-states>.

If you have any questions regarding the review, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact my staff at AgreementStateRegs.Resource@nrc.gov.

Sincerely,

Signed by Giantelli, Adelaide
