Subject: Request for additional information for NRC Materials License No. 21-16955-01
Date: Thursday, October 26, 2023 2:24:00 PM

Dear David Edlebeck:

This refers to the renewal license application for Coleman Engineering Company, NRC License No. 21-16955-01. Based on the licensing guidance in NUREG-1556, Volume 20, Revision 1, the NRC policy is to renew a materials license in its entirety. Therefore, we will need all information as required in NRC Form 313, "Application for Materials License", 10 CFR 30.32, "Application for specific licenses", and the applicable licensing guidance. Based on the proposed licensed materials and use in your application, we reviewed your application according to the licensing guidance in NUREG-1556, Volume 1, Revision 2. In order to renew your license, we will need the following information.

1. If you would like to use licensed material (portable nuclear gauges) at temporary job sites, please state.
2. Provide a facility diagram for each permanent portable gauge storage location. Include on the diagram the use of adjacent areas (including above and below), and information relevant to public dose and security as discussed in Sections 8.10.5, "Public Dose," and 8.10.6, "Operating, Emergency, and Security Procedures," respectively, in NUREG-1556, Vol. 1, Rev. 2, "Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Portable Gauge Licenses".
3. If there were portable gauges which were disposed off by transferred to other authorized license(s) since the last renewal, please provide the transferring receipt and the last leak test for those gauges. If there is none, please state.

To continue the review of your application, we request that you submit your response under a dated and signed cover letter by October 31, 2023. In the cover letter, please reference the license number and Mail Control No. 635554. We will assume that you do not wish to further pursue this licensing action if we do not receive a reply within the specified timeframe noted above.

If you have questions, require additional time to respond, or require clarification on any of the information stated above, please contact me at 630-829-9623 or reply to this email.

In accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) 2.390 of the NRC's "Rules of Practice," a copy of this correspondence will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

Best regards,

Frank Tran
