Re: Request for amendment of License No. 06-02388-01

The Hospital of Central Connecticut is requesting an amendment to our NRC license. Please remove the following Authorized Users from the license, as they are no longer affiliated with the site:

- Michael, Bisceglia, M.D.
- James W. Carroll, M.D.
- Alisa Siegfeld, M.D.
- Laurence Weiss, M.D.

In addition, we are requesting an increase in 10 CFR 35.300 possession limits, from 0.45 Ci to 1.5 Ci to accommodate the anticipated start of a Pluvicto (^{177}Lu) therapy program.

Should you have any technical questions regarding this amendment request, please contact the ARSO, George Pavlonnis. He may be reached at george.pavlonnis@hhchealth.org or by phone at 860-331-9379.

Sincerely,

A handwritten signature in cursive script that reads "Jessica Collins".
