Dear Dr. Turco:

This refers to the license amendment request dated September 27, 2023 for Mercy Hospital South, NRC License No. 24-01041-04. We reviewed your application in accordance with the licensing guidance in NUREG-1556, Volume 9, Rev. 3 and Volume 20, Rev. 1. Based on the review, we determined that some sealed sources which were transferred might be required to be leak tested (activity for a source containing more than 100 microcuries of beta or gamma-emitting material or more than 10 microcuries for alpha-emitting material). Please provide a copy of the last leak test for the applicable sources which were listed in the application.

Please provide the information above by November 27, 2023. In the cover letter, please reference the license number and Mail Control No. 637382. If you have questions, require additional time to respond, or require clarification on any of the information stated above, please contact me at 630-829-9623 or reply to this email.

In accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) 2.390 of the NRC's "Rules of Practice," a copy of this correspondence will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.
