Eric S. Carr, President - Nuclear Operations  
and Chief Nuclear Officer  
Innsbrook Technical Center  
5000 Dominion Boulevard  
P.O. Box 1002  
Glen Allen, VA 23060-6711

SUBJECT: NORTH ANNA NUCLEAR POWER STATION UNITS 1 AND 2 – NOTICE OF AVAILABILITY OF THE DRAFT SITE-SPECIFIC ENVIRONMENTAL IMPACT STATEMENT FOR SUBSEQUENT LICENSE RENEWAL (EPID NUMBER: L-2020-SLE-0000)

Dear Eric S. Carr:

The U.S. Nuclear Regulatory Commission (NRC) staff has prepared Site-Specific Environmental Impact Statement for License Renewal of Nuclear Plants, Supplement 7a, Second Renewal, Regarding Subsequent License Renewal for North Anna Power Station Units 1 and 2, Draft Report for Comment (DEIS). The DEIS supersedes NUREG-1437, Supplement 7, Second Renewal "Generic Environmental Impact Statement for License Renewal of Nuclear Plants, Supplement 7, Second Renewal, Regarding Subsequent License Renewal for North Anna Power Station Units 1 and 2, Draft Report issued in August 2021.

Based on the DEIS, the NRC staff's preliminary recommendation is that the adverse environmental impacts of subsequent license renewal (SLR) for North Anna Units 1 and 2 (i.e., the continued operation of North Anna for a period of 20 years beyond current expiration dates) are not so great that preserving the option of SLR for energy-planning decision-makers would be unreasonable. The NRC staff based its recommendation on the following: 1) Dominion's environmental report, as supplemented; 2) the NRC staff's consultations with Federal, State, Tribal, and local government agencies; 3) the NRC staff's independent environmental review, which is documented in the DEIS; and 4) the NRC staff's consideration of public comments.

The DEIS was submitted to the U.S. Environmental Protection Agency via e-NEPA and copies are also being distributed to interested Federal, State, and local government agencies, industry organizations, interest groups, and members of the public. A copy of the DEIS will also be placed in the Louisa Library, 881 Davis Hwy, Mineral, VA 23117, and in the NRC's Agencywide Documents Access and Management System (ADAMS) at <https://www.nrc.gov/reading-rm/adams.html>. The DEIS is located at ML23339A047.

If further information is required, please contact the NRC environmental project manager, Tam Tran, via email at [Tam.Tran@nrc.gov](mailto:Tam.Tran@nrc.gov).

Sincerely,

Signed by Koenick, Stephen  
on 01/04/24

Steve S. Koenick, Chief  
Environmental Project Management Branch 1  
Division of Rulemaking, Environmental,  
and Financial Support  
Office of Nuclear Material Safety  
and Safeguards
