SUBJECT: TRIBAL NOTIFICATION OF THE WESTERN NUCLEAR INC. LICENSE
TERMINATION AND TRANSFER OF OWNERSHIP

Dear Teanna Limpy ,

We are sending you this letter because we identified the Northern Cheyenne Tribe of the Northern Cheyenne Indian Reservation, Montana as being potentially interested in the license termination of the Western Nuclear, Inc. (WNI) Split Rock uranium mill tailings disposal site located in Fremont County, Wyoming. In a letter to the Northern Cheyenne Tribe of the Northern Cheyenne Indian Reservation, Montana dated October 30, 2020,¹ the U.S. Nuclear Regulatory Commission (NRC) staff explained the process and review activities for the termination of the license by the State of Wyoming and transfer of the site to the U.S. Department of Energy (DOE) for the long-term care and maintenance. By the letter dated December 8, 2020,² the staff informed the Northern Cheyenne Tribe of the Northern Cheyenne Indian Reservation, Montana that a finding of no effects determination was appropriate under Section 106 of the National Historic Preservation Act. Additionally, by the letter dated September 23, 2021,³ the Northern Cheyenne Tribe of the Northern Cheyenne Indian Reservation, Montana was notified that the NRC staff completed its review of the Wyoming Department of Environmental Quality Completion Review Report and found that the license termination activities at the WNI site met all applicable standards and requirements for the protection of public health, safety, and environment.⁴

The purpose of this letter is to inform the Northern Cheyenne Tribe of the Northern Cheyenne Indian Reservation, Montana that the NRC accepted the Long-Term Surveillance Plan (LTSP) for the Split Rock disposal site.⁵ Acceptance of this LTSP established the DOE as the long-term custodian and caretaker of the Split Rock site under the general license specified in Section 40.28 of Title 10 of the *Code of Federal Regulations*. The WNI and the U.S. Bureau of Land Management transferred ownership of land at the Split Rock site to the DOE. The State of Wyoming terminated WNI's Source Material License No. WYSUA-0056

for the Split Rock site on October 31, 2023.¹ The NRC found these actions complete for all requirements under the Uranium Mill Tailings Radiation Control Act of 1978, as amended for the termination of the WNI license and transference of the Split Rock site to DOE for long-term care. Enclosed with this letter is the *Federal Register* notice for license termination and transfer. SUPPLEMENTARY INFORMATION:

I. Background

The Split Rock site is approximately 2 miles northeast of Jeffrey City, Wyoming, in southeastern Fremont County. The Split Rock site is regulated under title II of the Uranium Mill Tailings Radiation Control Act of 1978

(title 42 *United States Code* section 7901 [42 U.S.C. 7901]).

II. Discussion

On October 30, 2023, the NRC concurred with the State of Wyoming's determination that applicable standards and requirements for the protection of public health, safety and the environment had been met for the WNI Split Rock uranium mill tailings disposal site. WNI and the U.S. Bureau of Land Management transferred ownership of land at the Split Rock site to the DOE, as required by part 40 of title 10 of the *Code of Federal Regulations* (10 CFR), appendix A, criterion 11, prior to termination of WNI's Source Material License by the State of Wyoming. By letter dated August 11, 2023, the DOE submitted the final Long-Term Surveillance Plan (LTSP) for the Split Rock disposal site for review and acceptance by the NRC. The NRC staff completed its technical review of the LTSP and determined that the LTSP satisfies the long-term surveillance requirements in 10 CFR part 40, appendix A, criterion 12, and 10 CFR 40.28, for the Split Rock tailings disposal site. Additionally, the NRC prepared an environmental assessment (EA) for this LTSP in accordance with

its regulations. Based on the EA, the NRC has concluded that a finding of no significant impact (FONSI) is appropriate. The FONSI was noticed in the **Federal Register** on October 30, 2023 (88 FR 74211).

III. Notice of Approval

Accordingly, notice is hereby given that the NRC has accepted the LTSP for the Split Rock site. As documented in NRC's letter dated November 7, 2023, acceptance of this LTSP established the DOE as the long-term custodian and caretaker of the Split Rock site under the general license specified in 10 CFR 40.28. The State of Wyoming terminated WNI's Source Material License No. WYSUA-0056 for the Split Rock site on October 31, 2023, and notified WNI by letter dated October 31, 2023. The NRC finds these actions complete all requirements for closure of the Split Rock site under the Uranium Mill Tailings Radiation Control Act of 1978, as amended.

IV. Availability of Documents

The documents identified in the following table are available to interested persons through one or more of the following methods, as indicated.
