Department of Public  
Health & Environment

December 19, 2023

Theresa Clark, Deputy Director  
Division of Materials Safety, Security, State,  
and Tribal Programs (MSST)  
Office of Nuclear Material Safety  
and Safeguards  
U.S. Nuclear Regulatory Commission  
T8-E18  
Washington, D.C. 20555-0001

Dear Ms. Clark:

Enclosed is a copy of the final revisions to the Colorado Rules and Regulations Pertaining to Radiation Control, 6 CCR 1007-1, Part 4 (Standards for protection against radiation). Following a stakeholder process, the final rule was adopted by the Colorado Board of Health on October 18, 2023 and became effective December 15, 2023. The final rule makes a minor wording change to the parallel provision in 10 CFR 20.1502(a), consistent with other language used throughout the Colorado Part 4 rule. Additionally, a Colorado specific provision is revised to add a recordkeeping requirement applicable to radiation machine (x-ray) registrants. The rule change also includes minor editorial changes. For reference, we have also enclosed a copy of the draft rule as presented to the Colorado Board of Health prior to adoption.

We believe that adoption of these revisions satisfies the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200, for Colorado's equivalent regulations.

We thank you for your consideration. If you have any questions regarding the proposed regulation changes, please feel free to contact me at 303-692-3371 or James Jarvis of my staff at (303) 692-3454 or james.jarvis@state.co.us.

Sincerely,

Jim Grice, Radiation Program Manager  
Hazardous Materials & Waste Management Division
