SUBJECT: REVISION NO. 17 OF CERTIFICATE OF COMPLIANCE NO. 9330, FOR THE
MODEL NO. ATR-FFSC PACKAGE

Dear Julia Shenk:

As requested by your letter dated December 19, 2023, enclosed is certificate of compliance No. 9330, Revision No. 17, for the Model No. ATR-FFSC package. Changes made to the enclosed certificate are indicated by vertical lines in the margin. The staff's safety evaluation report is also enclosed.

This approval constitutes authority to use the package for shipment of radioactive material and for the package to be shipped in accordance with the provisions of Title 49 of the *Code of Federal Regulations* Section 173.471.

If you have any questions regarding this certificate, please contact Pierre Saverot of my staff.

Sincerely,

A handwritten signature in black ink that reads "Yoira K. Diaz-Sanabria".

SAFETY EVALUATION REPORT
Docket No. 71-9330
Model No. ATR-FFSC
Certificate of Compliance No. 9330
Revision No. 17

EVALUATION

By letter dated December 19, 2023, the U.S. Department of Energy (DOE) requested renewal of certificate of compliance (CoC) No. 9330, for the Model No. ATR-FFSC package.

The current certificate, Revision No. 16, expires May 31, 2024, and DOE has a continued programmatic need for use of this package. There have been no changes to the package since the CoC was amended on February 9, 2023, and no other changes were requested.

The certificate has been updated to Revision No. 17.

CONDITIONS

The following changes have been made to the CoC:

Condition No. 11 limits the validity of Revision No. 16 of the certificate to May 31, 2024.

Condition No. 12 was updated to reflect the May 31, 2029, expiration date of Revision No. 17 of the certificate.

CONCLUSION

Based on the statements and representations in the renewal request, the staff finds that these changes do not affect the ability of the package to meet the requirements of Title 10 of the *Code of Federal Regulations* Part 71.

Issued with CoC No. 9330, Revision No. 17.
