Subject: Acceptance for detailed review of Centrus/ACO's request to terminate its Lead Cascade Facility license SNM-2003
Date: Friday, January 05, 2024 11:51:00 PM

Dear Kelly Fitch,

The U.S. Nuclear Regulatory Commission (NRC) staff has received your submittal dated November 2, 2023 (Agencywide Documents Access and Management System (ADAMS) Accession Number ML23311A313), pertaining to American Centrifuge Operating, LLC (ACO) requesting NRC review and approval of the license amendment request to terminate the materials license SNM-7003 for the American Centrifuge Lead Cascade Facility located in Piketon, Ohio.

We have completed our acceptance review of the submittal. We have identified no administrative omissions or deficiencies that would prevent us from proceeding with a detailed review. Your submittal has been assigned Enterprise Project Identification Number (EPID) L-2023-LLA-0159. Please reference this EPID number and Docket Number 07007004 in any future correspondence associated with this request.

Please note that the NRC staff's technical review of your submittal may identify issues that require additional information. Based on our preliminary evaluation and projection of current review schedules, we anticipate completing our formal review by March 1, 2024. This date could change depending on the findings of our technical review, urgent assignments, or other factors. We will promptly communicate any significant changes to this schedule. In addition, the NRC staff estimates that completing the review of your submittal will require approximately 60 staff hours which corresponds to about \$18,000.00 (current rate of \$300.00/hr).

Please let me know if you have any questions.

Thank you

Yawar H. Faraz, Senior Project Manager
Fuel Facility Licensing Branch
Division of Fuel Management
Office of Nuclear Material Safety and Safeguards
