Title: Public Outreach Meeting on the forthcoming X-energy/Dow Construction Permit Application (Project Long Mott)

Date(s) and Time(s): February 15, 2024, 05:00 PM to 07:30 PM CT

Location: Bauer Community Center
2300 TX-35 North
Port Lavaca, TX

Category: This is an Information Meeting with a Question and Answer Session. The purpose of this meeting is for the NRC staff to meet directly with individuals to discuss regulatory and technical issues. Attendees will have an opportunity to ask questions of the NRC staff or make comments about the issues discussed throughout the meeting; however, the NRC is not actively soliciting comments towards regulatory decisions at this meeting.

Purpose: The U.S. Nuclear Regulatory Commission (NRC) staff will discuss the NRC safety and environmental review processes for the review of the forthcoming construction permit (CP) application for proposed deployment of X-energy's Xe-100 reactor design at the Dow Seadrift operations site in Calhoun County, TX. A key topic to be discussed is how and when the public may participate in the NRC review process, if desired. Members of the public are encouraged to ask questions about the NRC's processes for conducting the review of the CP application.

The NRC provides reasonable accommodations to individuals with disabilities where appropriate. If you need a reasonable accommodation to participate in a meeting or need a meeting notice or the transcript or other information from a meeting in another format (e.g. braille, large print), please contact Anne Silk, NRC Reasonable Accommodations Coordinator, at Anne.Silk@nrc.gov or call directly at 301-287-0745. Determinations on requests for reasonable accommodation will be made on a case-by-case basis. Ten (10) days' advance notice is requested to try to ensure availability; however, every effort will be made to address a request for reasonable accommodations with less notice.
