Title: NRC Hybrid Workshop (1 of 3) - Update to RG 1.183, Revision 1, "Alternative Radiological Source Terms for Evaluating Design Basis Accidents at Nuclear Power Reactors"

Date(s) and Time(s): January 09, 2024, 01:00 PM to 04:30 PM ET

Location: Virtual and In-Person at NRC One White Flint North
11555 Rockville Pike
Rockville, MD

Category: This is a Comment-Gathering Meeting. The purpose of this meeting is for NRC staff to meet directly with individuals to receive comments from participants on specific NRC decisions and actions to ensure that NRC staff understands their views and concerns.

Purpose: The NRC is hosting 3 workshops in early 2024 to discuss a revision to RG 1.183, Revision 1 (<https://www.nrc.gov/docs/ML2308/ML23082A305.pdf>). These workshops will provide opportunities for NRC staff to discuss updates to extend the applicability of the guidance to higher burnup and increased enrichment fuel applications, in support of the NRC's Increased Enrichment Rulemaking (<https://www.regulations.gov/document/NRC-2020-0034-0005>), and to consider other feedback that is relevant to the guidance. The workshops allow for the NRC's external stakeholders to participate in the regulatory process through a comment gathering format as described in the NRC's policy statement on public meetings at 86 FR 14964. The staff will collect comments and input through note-taking and will consider this information while drafting updates to guidance.
