Draft Supplemental Environmental Impact Statement

AGENCY: Nuclear Regulatory Commission

ACTION: Request for comment; public comment meetings; opportunity to request a hearing and to petition for leave to intervene.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing for public comment draft Site-Specific Supplement 2, Second Renewal, to the Generic Environmental Impact Statement (GEIS) for License Renewal of Nuclear Plants, NUREG-1437, regarding the proposed subsequent renewal of Renewed Facility Operating License Nos. DPR-38, DPR-47, and DPR-55, for an additional 20 years of operation for Oconee Nuclear Station, Units 1, 2, and 3 (Oconee Station). Oconee Station is located in Seneca, South Carolina, approximately 30 miles west of Greenville. Possible alternatives to the proposed action of subsequent license renewal (SLR) include no action and reasonable replacement power alternatives. A new notice of opportunity to request a hearing and petition for leave to intervene is also being issued.

DATES: The staff will hold two public meetings, one in-person near Oconee Station and one through online webinar and teleconference call, on the draft site-specific environmental impact statement (EIS), including a presentation on the preliminary findings and a transcribed public comment session. The in-person meeting will be held on February 21, 2024, at 7 p.m. eastern time (ET) at the Madren Conference Center on

the grounds of Clemson University. The virtual meeting will be held February 27, 2024, at 1 p.m. ET. The public meeting details can be found on the NRC's Public Meeting Schedule at <https://www.nrc.gov/pmns/mtg>. Members of the public are invited to submit comments within 45 days of an upcoming *Federal Register* notice anticipated to be published on February 16, 2024, by the Environmental Protection Agency. Comments received after that date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before that date. Requests for a hearing or petitions for leave to intervene must be filed by April 15, 2024.

II. Discussion

The NRC is issuing for public comment draft Site-Specific Supplement 2, Second Renewal, to the GEIS for License Renewal of Nuclear Plants, NUREG-1437, regarding the proposed subsequent renewal of Renewed Facility Operating License Nos. DPR-38,

DPR-47, and DPR-55, for an additional 20 years of operation for Oconee Station. Draft site-specific Supplement 2, Second Renewal, to the GEIS includes the preliminary analysis that evaluates the environmental impacts of the proposed action and alternatives to the proposed action. It considers the impacts of all subsequent license renewal issues applicable to Oconee Station subsequent license renewal on a site-specific basis. The NRC staff prepared the draft site-specific Supplement 2, Second Renewal, to the GEIS for Oconee Station in accordance with the Commission's decisions in Commission Legal Issuance (CLI)-22-03 (ADAMS Accession No. ML22055A527), that references CLI-22-02 (ADAMS Accession No. ML22055A496), both dated February 24, 2022. Based on the NRC staff's (i) review of the SLR application, which includes the environmental report, supplemental documents, and the licensee's responses to the NRC staff's requests for additional information; (ii) consultation with Federal, State, Tribal, and local governmental agencies and consideration of input from other stakeholders; and (iii) independent environmental review as documented in the draft site-specific EIS, the NRC staff's preliminary recommendation is that the adverse environmental impacts of subsequent license renewal for Oconee Station are not so great that preserving the option of subsequent license renewal for energy-planning decisionmakers would be unreasonable.

III. Opportunity to Request a Hearing and Petition for Leave to Intervene

As the Commission directed in CLI-22-03, a new notice of opportunity to request a hearing and petition for leave to intervene is being issued.

Within 60 days after the date of publication of this notice, any persons (petitioner) whose interest may be affected by this action may file a request for a hearing and petition for leave to intervene (petition) with respect to the action. Petitions shall be filed in accordance with the Commission's "Agency Rules of Practice and Procedure" in

10 CFR part 2. Interested persons should consult 10 CFR 2.309. If a petition is filed, the presiding officer will rule on the petition and, if appropriate, a notice of a hearing will be issued.

Petitions must be filed no later than 60 days from the date of publication of this notice in accordance with the filing instructions in the “Electronic Submissions (E-Filing)” section of this document. Petitions and motions for leave to file new or amended contentions that are filed after the deadline will not be entertained absent a determination by the presiding officer that the filing demonstrates good cause by satisfying the three factors in 10 CFR 2.309(c)(1)(i) through (iii).

A State, local governmental body, Federally recognized Indian Tribe, or designated agency thereof, may submit a petition to the Commission to participate as a party under 10 CFR 2.309(h) no later than 60 days from the date of publication of this notice. Alternatively, a State, local governmental body, Federally recognized Indian Tribe, or agency thereof may participate as a non-party under 10 CFR 2.315(c).

For information about filing a petition and about participation by a person not a party under 10 CFR 2.315, see ADAMS Accession No. ML20340A053 (<https://adamswebsearch2.nrc.gov/webSearch2/main.jsp?AccessionNumber=ML20340A053>) and on the NRC’s public website at <https://www.nrc.gov/about-nrc/regulatory/adjudicatory/hearing.html#participate>.

IV. Electronic Submissions (E-Filing)

All documents filed in NRC adjudicatory proceedings, including documents filed by an interested State, local governmental body, Federally recognized Indian Tribe, or designated agency thereof that requests to participate under 10 CFR 2.315(c), must be filed in accordance with 10 CFR 2.302. The E-Filing process requires participants to submit and serve all adjudicatory documents over the internet, or in some cases, to mail

copies on electronic storage media, unless an exemption permitting an alternative filing method, as further discussed, is granted. Detailed guidance on electronic submissions is located in the “Guidance for Electronic Submissions to the NRC” (ADAMS Accession No. ML13031A056) and on the NRC’s public website at <https://www.nrc.gov/site-help/e-submittals.html>.

To comply with the procedural requirements of E-Filing, at least 10 days prior to the filing deadline, the participant should contact the Office of the Secretary by email at Hearing.Docket@nrc.gov, or by telephone at 301-415-1677, to (1) request a digital identification (ID) certificate, which allows the participant (or its counsel or representative) to digitally sign submissions and access the E-Filing system for any proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a petition or other adjudicatory document (even in instances in which the participant, or its counsel or representative, already holds an NRC-issued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the proceeding if the Secretary has not already established an electronic docket.

Information about applying for a digital ID certificate is available on the NRC’s public website at <https://www.nrc.gov/site-help/e-submittals/getting-started.html>. After a digital ID certificate is obtained and a docket created, the participant must submit adjudicatory documents in Portable Document Format. Guidance on submissions is available on the NRC’s public website at <https://www.nrc.gov/site-help/electronic-sub-ref-mat.html>. A filing is considered complete at the time the document is submitted through the NRC’s E-Filing system. To be timely, an electronic filing must be submitted to the E-Filing system no later than 11:59 p.m. ET on the due date. Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an email confirming receipt of the document. The E-Filing system also distributes an email

that provides access to the document to the NRC's Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the document on those participants separately. Therefore, applicants and other participants (or their counsel or representative) must apply for and receive a digital ID certificate before adjudicatory documents are filed to obtain access to the documents via the E-Filing system.

A person filing electronically using the NRC's adjudicatory E-Filing system may seek assistance by contacting the NRC's Electronic Filing Help Desk through the "Contact Us" link located on the NRC's public website at <https://www.nrc.gov/site-help/e-submittals.html>, by email to MSHD.Resource@nrc.gov, or by a toll-free call at 1-866-672-7640. The NRC Electronic Filing Help Desk is available between 9 a.m. and 6 p.m., ET, Monday through Friday, except Federal holidays.

Participants who believe that they have good cause for not submitting documents electronically must file an exemption request, in accordance with 10 CFR 2.302(g), with their initial paper filing stating why there is good cause for not filing electronically and requesting authorization to continue to submit documents in paper format. Such filings must be submitted in accordance with 10 CFR 2.302(b)-(d). Participants filing adjudicatory documents in this manner are responsible for serving their documents on all other participants. Participants granted an exemption under 10 CFR 2.302(g)(2) must still meet the electronic formatting requirement in 10 CFR 2.302(g)(1), unless the participant also seeks and is granted an exemption from 10 CFR 2.302(g)(1).

Documents submitted in adjudicatory proceedings will appear in the NRC's electronic hearing docket, which is publicly available at <https://adams.nrc.gov/ehd>, unless excluded pursuant to an order of the presiding officer. If you do not have an NRC-issued digital ID certificate as previously described, click "cancel" when the link requests

certificates and you will be automatically directed to the NRC's electronic hearing dockets where you will be able to access any publicly available documents in a particular hearing docket. Participants are requested not to include personal privacy information such as social security numbers, home addresses, or personal phone numbers in their filings unless an NRC regulation or other law requires submission of such information. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, participants should not include copyrighted materials in their submission.

Detailed information about the subsequent license renewal process can be found on the NRC's public website, under Reactor License Renewal, at <https://www.nrc.gov/reactors/operating/licensing/renewal.html>. Materials involving the request to renew the operating licenses for Oconee Station are available for public inspection at the NRC's PDR, and at <https://www.nrc.gov/reactors/operating/licensing/renewal/subsequent-license-renewal.html>.
