Amendment License No. 52-01986-04

Dear Mr. Courtemanche:

To update your records, I confirm the undersigned, Angélica Varela-Llavona, as the current Chancellor of the Campus of Rio Piedras and our management representative.

After evaluating the alternatives to obtain the device manufactured abroad, the Radiation Safety and Compliance Committee has decided to withdraw the request for amendment to the license regarding the acquisition of an Americium-241 source, as well as the integration of the Dr. Palai as an authorized user.

Please note that the source of Americium 241 will not be acquired from the foreign manufacturer. We appreciate the time spent evaluating our request.

Sincerely,

Angélica Varela Llavona, Ph. D.
Chancellor
