Re: 2023 Fourth Quarter Transfer Report

Dear Sir:

In accordance with statement 9 of NRC License 06-02269-04G, Sikorsky Aircraft has initially transferred zero (0) IBIS indicators to the US Navy (NADEP, Cherry Point, NC) during the fourth calendar quarter of 2023.

The RSO for this US Navy Permit is:

Robert Linsteadt, N422
NAVAIR Radiation Safety Officer
COMNAVAIRPAC
NAS North Island Bldg 319
San Diego, CA 92135

The IBIS indicator (Part No. 12210-1) is manufactured by General Nucleonics Inc. Ponomo, CA. Each indicator contains a 500 microcurie Sr-90 sealed source.

Sincerely,

A handwritten signature in black ink, appearing to read "Julius Vaughn". The signature is fluid and cursive, with a long horizontal stroke at the end.

Julius Vaughn
Radiation Safety Officer
