Dear Brian:

In letter dated October 20, 2023, Scott Surovi notified the U.S. Nuclear Regulatory Commission (NRC) of a request to terminate NRC Materials License No. 24-01381-01. Your letter is available electronically from the Agencywide Documents Access and Management System (ADAMS) at Accession No. ML23286A053.

An environmental assessment for this action is not required because this action is categorically excluded under Title 10 of the *Code of Federal Regulations* (10 CFR) 51.22(c).

The NRC staff has reviewed the information provided. Based on its review, the NRC staff has concluded that all licensable radioactive material has been removed from your facility located at 3933 S Broadway, St. Louis, MO 63118 and residual radioactive material attributable to licensed activities does not exceed current NRC criteria.

Based on these conclusions, no further remediation or actions are required with respect to NRC-related material.
