Bayamon, PR 00960-6036

**SUBJECT: CENTRO MEDICO DEL TURABO, INC. D/B/A HOSPITAL HIMA- SAN PABLO
BAYAMON, REQUEST FOR ADDITIONAL INFORMATION, MAIL CONTROL
NO. 637920**

Dear Heidi Rodriguez Benitez:

This is in reference to your letter dated November 6, 2023, requesting a change of control for NRC License No. 52-21325-01. In order to continue our review, we need the following additional information:

1. Describe any changes in personnel or duties that relate to the licensed program. Include training and experience for new personnel and any changes in the training program. Specifically, please confirm if there will be any changes in authorized users; it is important to note that each use authorized on the license must have at least one authorized user.
2. Confirm that the required calibrations, leak tests, area surveys, wipe tests, training, and quality control are current and will continue to be performed as required by license commitments and regulations and that related records will be retained as required.
3. Please confirm that the transferee has a current Agreement State or NRC license for radioactive material. Provide the name of the licensee and license number.

We will continue our review upon receipt of this information. Please reply to my attention at Jonathan.Pfingsten@nrc.gov.

In order to continue prompt review of your application, we request that you submit your response to this letter within 30 calendar days from the date of this letter.

An electronic version of the NRC's regulations is available on the NRC Web Site at: www.nrc.gov. Additional information regarding medical uses of radioactive materials may be obtained on the NRC Web Site at: <http://www.nrc.gov/materials/miau/med-use-toolkit.html>. This site also provides the updated Training and Experience NRC Form 313A series of forms and guidance, as well as information on the revised regulations for naturally-occurring and accelerator-produced radioactive materials (NARM).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the

NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>. Please be aware that you may request that certain portions of your submittal to NRC be withheld from public disclosure as proprietary information. To do this, you must execute an affidavit as specified in 10 CFR 2.390. You must list all portions that you wish to be held proprietary, along with your reasoning as to why that is appropriate. While it is allowable, please refrain from submitting proprietary information in support of a license unless necessary. Keep in mind that all NRC licenses are considered to be in the public domain, and therefore may be viewed by any member of the public who requests to see them.

If you have any questions regarding this request for additional information, please contact me at 610-337-5170 or via electronic mail at Jonathan.Pfingsten@nrc.gov.

Thank you for your cooperation.

Sincerely,

Jonathan Pfingsten, Senior Health Physicist
