RE: CENTRO MÉDICO DEL TURABO, INC. D/B/A HOSPITAL HIMA-SAN PABLO BAYAMÓN, REQUEST FOR ADDITIONAL INFORMATION, MAIL CONTROL NO. 637920
LICENSE NUMBER 52-21325-01 – HOSPITAL HIMA SAN PABLO BAYAMÓN

Dear Mr. Pfingsten:

As requested on your letter dated December 12, 2023, for the matter in reference, below you will find the additional information requested for the change in control for NRC License No. 52-21325-01:

1. Describe any changes in personnel or duties that relate to the licensed program. Include training and experience for new personnel and any changes in the training program. Specifically, please confirm if there will be any changes in authorized users; it is important to note that each use authorized on the license must have at least one authorized user.

No changes in personnel or duties have occurred nor any changes are expected to occur.

2. Confirm that the required calibration, leak tests, area surveys, wipe tests, training, and quality control are current and will continue to be performed as required by license commitments and regulations and that related records will be retained as required.

All tests and procedures detailed in this requirement are being performed, with the ones regarding daily work, since we have not been working with patients since April 1, 2023.

3. Please confirm that the transferee has a current Agreement State or NRC license for radioactive material. Provide the name of the licensee and license number.

AM Acquisition I, LLC, a recently created corporation, still does not possess an Agreement State or NRC license for radioactive material. Through this process, AM Acquisition I, LLC is requesting transfer of control for the above referenced license. However, AM Acquisition, LLC is affiliated to Sociedad Española de Auxilio Mutuo y Beneficiencia de Puerto Rico, who has NRC license No. 52-08827-02 under the name of Hospital Auxilio Mutuo.

Should you require any further information, feel free to contact the undersigned.

Respectfully,
