RE: License No. 45-24958-01 Renewal Application- Additional Information

To Ms. Ullrich:

In reference to the February 22, 2024 letter from you requesting additional information to renew NRC License No. 45-24958-01, please see the below.

1. The above NRC license number is for use at temporary job sites within the NRC jurisdiction.
2. Lee Hy Construction, L.L.C. will provide and use radiation survey meters that meet criteria established in "Radiation Safety Program- Radiation Monitoring Instruments. In NUREG-1556, Vol. 1, Rev. 2"
3. Lee Hy Construction, L.L.C will take physical inventories every six (6) months or at intervals approved by the NRC to account for all sealed sources and devices possessed under the license.
4. Lee Hy Construction, L.L.C. currently uses NVLAP- approved personnel dosimetry devices. The current dosimetry device is Landauer-Ja. The device is placed on the chest of the employee, and we also have a control device.
5. Lee Hy Construction, L.L.C. provides copies of "Consolidated Guidance About Materials Licenses: Program Specific Guidance About Portable Gauge Licenses" to all employees who use gauges and will be available for review at storage locations.
6. All gauges will have leak tests performed at intervals approved by the NRC and will be specified in the Sealed Source and Device Registration certificate. Leak tests will be performed by an organization licensed by the NRC to provide leak testing services to other licensees. All records of leak testing will be maintained.
7. Lee Hy Construction, L.L.C. will maintain procedures for routine maintenance of our gauges according to the manufacturer's recommendations and instructions.
