Executive Vice Chancellor for Administration and  
Chief Administrative Officer

TO: Briana L. Davis  
FROM: Nichol L. Luoma, Executive Vice Chancellor and CAO  
DATE: February 14, 2024  
RE: Delegation of Authority as Radiation Safety Officer

This memo serves as the confirmation of the delegation of responsibility and authority for you as Radiation Safety Officer effective February 14, 2024. You are responsible for ensuring the safe use of radiation under our U.S. Nuclear Regulatory Commission Type A Broad Scope License (No. 24-00167-11), our Accelerator Production License (No. 24-00167-14), and any other licenses we may obtain. You are responsible for managing the radiation protection program; identifying radiation protection problems; initiating, recommending, or providing corrective actions; verifying implementation of corrective actions; stopping unsafe activities; and ensuring compliance with regulations. You are hereby delegated the authority necessary to meet those responsibilities, including prohibiting the use of byproduct material by individuals who do not meet the necessary requirements and shutting down operations where justified to maintain radiation safety. You are required to notify University management if individuals do not cooperate and do not address radiation safety issues. In addition, you are free to raise issues within the scope of authority hereby delegated to you with the US Nuclear Regulatory Commission at any time. It is estimated that you will spend 40 hours per week conducting radiation protection activities.

In addition, this memo also confirms the full support of the Assistant Vice Chancellor of Environmental Health and Safety, Lance Franklin, who serves as your supervisor. This endorsement underscores the confidence in your abilities and dedication to maintaining a safe environment.

I accept the above responsibilities

Briana L. Davis  
Radiation Safety Officer
