

**UNITED STATES  
NUCLEAR REGULATORY COMMISSION**  
WASHINGTON, D.C. 20555-0001

February 23, 2024

**MEMORANDUM TO:** Samantha C. Lav, Chief  
Fuel Facility Licensing Branch  
Division of Fuel Management  
Office of Nuclear Material Safety  
and Safeguards

**FROM:** Jonathan G. Rowley, Project Manager /RA/  
Fuel Facility Licensing Branch  
Division of Fuel Management  
Office of Nuclear Material Safety  
and Safeguards

**SUBJECT:** SUMMARY OF JANUARY 24, 2024, CLOSED POST APPLICATION  
MEETING WITH URENCO USA REGARDING LICENSE  
AMENDMENT REQUEST FOR CHANGES TO LICENSE  
CONDITIONS AND RAISING ITS ENRICHMENT LIMIT TO LESS  
THAN 10 WEIGHT PERCENT FOR LOW ENRICHED URANIUM PLUS  
PRODUCTION SYSTEMS (LAR 23-02)

On January 24, 2024, the U.S. Nuclear Regulatory Commission (NRC) staff held a virtual Closed post application meeting with Urenco USA (UUSA) representatives. The purpose of the meeting was for UUSA to discuss the content of the license amendment request (LAR) to raise the enrichment limit to less than 10 weight percent uranium 235 (LAR 23-02) and provide a cross walk to where that content can be found in the LAR. The intent was to facilitate the acceptance review of the LAR and subsequently facilitate the technical review of the LAR.

UUSA informed the NRC staff of its desired target dates for various licensing actions UUSA has planned. UUSA detailed the structure of LAR 23-02 to help the NRC staff better understand how the LAR is laid out and where things are located within the various documents. UUSA covered the scope of the LAR to help the NRC staff better understand what is attempted to be accomplished by the LAR.

A list of participants is provided as the Enclosure. The meeting notice can be found in the Agencywide Documents Access and Management System at accession number ML24012A149. The UUSA presentations given during the meeting can be found at accession numbers ML24036A301 (public).
